SUBJECT: Contract BB-375

Dear Jim:

As you know, the term of this contract expired some months ago. Due to various mutual agreements; i.e., spare parts, modification to Project Bordertown reports, etc., etc., we have extended this contract in the delivery of certain items. However, we have never formally extended the term of the contract. Could you provide me with an extension of the duration of this contract through August, 1962, to cover the charge of the IBM equipment located at SAC. This equipment is covered under a project running through 31 July 1962.

Thank you very much for your consideration in this matter.

Very truly yours,
